Instructions

1 Follow the path out of Coxhoe leisure centre, past the skate park and out onto the main road. Run towards Durham.

The first 2 and a half miles of the route are along the main road, over the A1 roundabout (take care, reduced path nowadays) and then all the way through
2 Bowburn. On the straight after Bowburn garage, turn left onto the public bridleway

3 This bridleway is almost three miles long, taking in farms, cottages, Croxdale Hall before dropping down to the River Wear.

At the gated exit turn left up the sharp hill (closed road) to the main road A167. Cross this and then turn into Sunderland Bridge village. Follow this quiet road
4 through and up into Hett village (1.5 miles).

5 Run through Hett and at 7 miles take a left down the road (called Leeman's Lane on a map). At the bottom of this hill (7.5 miles) take the road right signed Coxhoe.

Follow this undulating road for 1.5 miles to the end, junction with the A688. Cross the A688 and then run left, downhill. This path takes you down the disused road.

6 At the gate turn left then right to rejoin the A688 back to Coxhoe. At the roundabout (9.6 miles) stay right on the A177.

Approaching Coxhoe over the A1, go straight on at the school up the terraced street. Follow this for about 300 metres then turn left at blue sign for Quarrington
7 Hill. Follow this path through the gap and down through the bungalows towards Coxhoe leisure centre.
